General Information On Condominiums

A condominium is a special form of real property. To create a condominium in Hawaii, the requirements of the Condominium Property Act, ChapterA, Hawaii Revised Statutes, must be complied with. In addition, certain requirements and approvals of the County in which the project is located must be satisfied and obtained.

Some condominium projects are leasehold. This means that the land or the building(s) and other improvements are leased to the buyer. The lease for the land usually requires that at the end of the lease term, the lessees (apartment owners/tenants) deliver their interest in the land to the lessor (fee property owner). The lease also usually requires that the lessees either (1) convey to the lessor the building(s) and other improvements, including any improvements paid for by the lessees; or (2) remove or dispose of the improvements at the lessee's expense. Leases for individual apartments often require that at the end of the lease term, the lessee deliver to the lessor the apartment, including any improvements placed in the apartment by the lessee.

If you are a typical condominium apartment owner, you will have two kinds of ownership: (1) ownership in your individual apartment; and (2) an undivided interest in the common elements.

"Common elements" are the areas of the condominium project other than the individual apartments. They are owned jointly by all apartment owners and include the land, either in fee simple or leasehold, and those parts of the building or buildings intended for common use such as foundations, columns, roofs, halls, elevators, and the like. Your undivided interest in the common elements cannot be separated from ownership of your apartment.

In some condominium projects, some common elements are reserved for the exclusive use of the owners of certain apartments. These common elements are called "limited common elements" and may include parking stalls, patios, lanais, trash chutes, and the like.

You will be entitled to exclusive ownership and possession of your apartment. Condominium apartments may be individually bought, sold, rented, mortgaged or encumbered, and may be disposed of by will, gift, or operation of law.

Your apartment will, however, be part of the group of apartments that comprise the condominium project. Study the project's Declaration, Bylaws, and House Rules. These documents contain important information on the use and occupancy of apartments and the common elements as well as the rules of conduct for owners, tenants, and guests.

Operation of the Condominium Project

The Association of Apartment Owners is the entity through which apartment owners may take action with regard to the administration, management, and operation of the condominium project. Each apartment owner is automatically a member of the Association.

The Board of Directors is the governing body of the Association. Unless you serve as a board member or an officer, or are on a committee appointed by the board, your participation in the administration and operation of the condominium project will in most cases be limited to your right to vote as an apartment owner. The Board of Directors and officers can take certain actions without the vote of the owners. For example, the board may hire and fire employees, increase or decrease maintenance fees, borrow money for repair and improvements and set a budget. Some of these actions may significantly impact the apartment owners.

Until there is a sufficient number of purchasers of apartments to elect a majority of the Board of Directors, it is likely that the developer will effectively control the affairs of the Association. It is frequently necessary for the developer to do so during the early stages of development and the developer may reserve certain special rights to do so in the Declaration and Bylaws. Prospective buyers should understand that it is important to all apartment owners that the transition of control from the developer to the apartment owners be accomplished in an orderly manner and in a spirit of cooperation.

II. CREATION OF THE CONDOMINIUM; CONDOMINIUM DOCUMENTS

A condominium is created by recording in the Bureau of Conveyances and/or filing with the Land Court a Declaration of Condominium Property Regime, a Condominium Map (File Plan), and the Bylaws of the Association of Apartment Owners. The Condominium Property Act (Chapter 514A, HRS), the Declaration, Bylaws, and House Rules control the rights and obligations of the apartment owners with respect to the project and the common elements, to each other, and to their respective apartments. The provisions of these documents are intended to be, and in most cases are, enforceable in a court of law.

- A. **Declaration of Condominium Property Regime** contains a description of the land, buildings, apartments, common elements, limited common elements, common interests, and other information relating to the condominium project.

The Declaration for this condominium is:

- C. **Bylaws of the Association of Apartment Owners** govern the operation of the condominium project. They provide for the manner in which the Board of Directors of the Association of Apartment Owners is elected, the powers and duties of the Board, the manner in which meetings will be conducted, whether pets are prohibited or allowed and other matters which affect how the condominium project will be governed.

The Bylaws for this condominium are:

Book _____ Page _____
☐ Filed- Land Court: Document No. _____

The Bylaws referred to above have been amended by the following instruments [state name of document, date and recording/filing information]: **None.**

- D. **House Rules.** The Board of Directors may adopt House Rules to govern the use and operation of the common elements and limited common elements. House Rules may cover matters such as parking regulations, hours of operation for common facilities such as recreation areas, use of lanais and requirements for keeping pets. These rules must be followed by owners, tenants, and guests. They do not need to be recorded or filed to be effective. The initial House Rules are usually adopted by the developer.

The House Rules for this condominium are:

☐ Proposed ☐ Adopted ☒ Developer does not plan to adopt House Rules

E. **Changes to Condominium Documents**

Changes to the Declaration, Condominium Map, and Bylaws are effective only if they are duly adopted and recorded and/or filed. Changes to House Rules do not need to be recorded or filed to be effective.

IMPORTANT INFORMATION ON LEASEHOLD CONDOMINIUM PROJECTS

The information contained in this report is a summary of the temms of the lease. For more detailed information, you should secure a copy of the lease documents and read them thoroughly.

If you have any legal questions about leasehold property, the lease documents or the terms of the lease and the consequences of becoming a lessee, you should seek the advice of an attorney.

There are currently no statutory provisions for the mandatory conversion of leasehold condominiums and there are no assurances that such measures will be enacted in the future.

In leasehold condominium projects, the buyer of an apartment will acquire the right to occupy and use the apartment for the time stated in the lease agreement. The buyer will not acquire outright or absolute fee simple ownership of the land. The land is owned by the lessor or the leased fee owner. The apartment owner or lessee must make lease rent payments and comply with the terms of the lease or be subject to the lessor's enforcement actions. The lease rent payments are usually fixed at specific amounts for fixed periods of time, and are then subject to renegotiation. Renegotiation may be based on a formula, by arbitration set in the lease agreement, by law or by agreement between the lessor and lessee. The renegotiated lease rents may increase significantly. At the end of the lease. the apartment owners may have to surrender the apartments, the improvements and the land back to the lessor without any compensation (surrender clause).

When leasehold property is sold, title is normally conveyed by means of an assignment of lease, the purpose of which is similar to that of a deed. The legal and practical effect is different because the assignment conveys only the rights and obligations created by the lease, not the property itself.

The developer of this condominium project may have entered into a master ground lease with the fee simple owner of the land in order to develop the project. The developer may have then entered into a sublease or a new lease of the land with the lessee (apartment owner). The developer may lease the improvements to the apartment owner by way of an apartment lease or sublease, or sell the improvements to the apartment owners by way of a condominium conveyance or apartment deed.

	<u>Conforming</u>	<u>Non-Conforming</u>	<u>Illegal</u>
Uses	<u> X </u>	<u> </u>	<u> </u>
Structures	<u> X </u>	<u> </u>	<u> </u>

If a variance has been granted or if uses, improvements or lot are either non-conforming or illegal, buyer should consult with county zoning authorities as to possible limitations which may apply.

Limitations may include restrictions on extending, enlarging, or continuing the non-conformity, and restrictions on altering and repairing structures. In some cases, a non-conforming structure that is destroyed or damaged cannot be reconstructed.

The buyer may not be able to obtain financing or insurance if the condominium project has a non-conforming or illegal use, structure, or lot.

D. Common Elements, Limited Common Elements, Common Interests:

1. Common Elements: Common Elements are those parts of the condominium project other than the individual apartments. Although the common elements are owned jointly by all apartment owners, those portions of the common elements which are designated as limited common elements (see paragraph 2 below) may be used only by those apartments to which they are assigned. The common elements for this project, as described in the Declaration, are:

☒ described in Exhibit B

☒ as follows: **The land areas of the limited common areas set aside for the respective Units is as shown on the Condominium Map, which is Exhibit A hereto.**

3. Common Interest: Each apartment will have an undivided fractional interest in all of the common elements. This interest is called the Common interest." It is used to determine each apartment's share of the maintenance fees and other common profits and expenses of the condominium project. It may also be used for other purposes, including voting on matters requiring action by apartment owners. The common interests for the apartments in this project, as described in the Declaration, are:

☒ described in Exhibit C

[] as follows:

- E. Encumbrances Against Title: An encumbrance is a claim against or a liability on the property or a document affecting the title or use of the property. Encumbrances may have an adverse effect on the property or your purchase and ownership of an apartment in the project.

Exhibit E describes the encumbrances against the title contained in the title report dated October 6, 1998

and issued by First Hawaii Title Corp.

Blanket Liens:

A blanket lien is an encumbrance (such as a mortgage) on the entire condominium project that secures some type of monetary debt (such as a loan) or other obligation. A blanket lien is usually released on an apartment-by-apartment basis upon payment of specified sums so that individual apartments can be conveyed to buyers free and clear of the lien.

☒ There are no blanket liens affecting title to the individual apartments.

☐ There are blanket liens which may affect title to the individual apartments.

Blanket liens (except for improvement district or utility assessments) must be released before the developer conveys the apartment to a buyer. The buyer's interest will be affected if the developer defaults and the lien is foreclosed prior to conveying the apartment to buyer.

<u>Type of Lien</u>	<u>Effect on Buyer's Interest and Deposit if Developer Defaults or Lien is Foreclosed Prior to Conveyance</u>

Initial Condominium Managing Agent: When the developer or the developer's affiliate is the initial condominium managing agent, the management contract must have a term of one year or less and the parties must be able to terminate the contract on notice of 60 days or less.

C. Additional Information Not Covered Above.

This is a condominium project, not a subdivision. Units purchased are not subdivided lots. They are not necessarily serviced by infrastructure which one has come to expect as part of a subdivision lot. Also, if a residence is not already constructed, you will be required to comply with zoning codes to be allowed to construct a residence on your limited common element. To determine whether your expectations can be realized, you should carefully review the contents of this Report, especially Exhibit F, which is a summary of the recorded restrictive covenants for the real property upon which this project is located. Among other things, the restrictive covenants govern building type and cost, land use, insurance requirements, architectural review, required association membership, animals and maintenance of the property. You should also conduct your own investigations and ascertain the validity of information provided. Please remember that issuance of an effective date for this Report does not mean the Real Estate Commission has approved the project. **Neither does it mean that the Common Element roadway has been improved or that that water, public utilities or other services have been extended to the respective Units.** Actual development of this area will be dependent on the adequacy of the source, storage and transmission facilities for water existing at that time. The Department of Water will not guarantee that water service will be available at the time water service is actually requested. It is the owner's responsibility to acquire water service for this development. It is recommended that the prospective purchaser inquire on the status of the existing facilities, applicable fees and/or other conditions required by the Department of Water. Also, a utility easement granted to Kauai Electric is required in order to furnish the proposed 5 units with electrical service. There are no electrical facilities in the area of this development. The prospective buyer should contact Kauai Electric for further information regarding this easement and should fully investigate the status of these and all other issues before making a purchase.

A unit owner will be required to comply with all County of Kauai zoning codes and regulations in relation to construction of residences and other improvements in the agricultural zone. Residential uses currently require execution by an owner of a Farm Dwelling Agreement with the County of Kauai, as contemplated by Hawaii state law regarding use of agricultural lands for residential purposes. The law requires that the family occupying a residence on agricultural land derive income from farming activities conducted on the land.

Unless otherwise stated to the contrary herein, each unit will be entitled to construct one farm dwelling. Each unit herein, whether currently possessing residential improvements, or now or subsequently entitled to construct a residence, under present State and/or County regulations shall be required to engage in agricultural activity as a condition of obtaining a building permit. The actual level of agricultural activity on the Project needed to qualify to construct residences is a matter determined by the County of Kauai. The requirements may change from time to time, and each owner's actions on said owner's unit will or may have an impact on the ability of other owners to build residences. Each owner shall have the duty to engage in agricultural activities, including a requirement of after-the-fact increases in the level of actual agricultural activity on said owner's own unit, if such is required in order for owners of other units to obtain building permits for their residences. In that regard, each unit with a residence, or then desiring to construct a residence, shall have an equal burden of activity in proportion to the amount of land reasonably available for agricultural use on their respective units, including the obligation to

abandon non-agricultural uses on units for the same or one or more other units. If a unit with agricultural activity but no residence desires to build, and in so doing retires acreage from production, other units may have to commence or increase production, cultivation or other agricultural activity so that the owners then-effected will have fair burdens. These provisions shall apply until all units with residential construction rights hereunder have constructed residences, and thereafter so long as agricultural use must be maintained as a condition of keeping residential improvements on the property. This means that failure to engage in or maintain farming activities may require the owner of a unit to remove a previously constructed residence from the unit.

The County of Kauai Planning Department has advised that, in order to process the necessary permits for the construction of a farm dwelling and the processing of a farm dwelling agreement, authorization from at least 75% of the legal and equitable ownership of the entire project shall be required, consistent with the Declaration of Condominium Property Regime and the Bylaws ("condominium documents"). Except as limited specifically by the condominium documents, all uses permitted in the open zone are permitted. Such uses include, but are not limited to, single family detached dwelling, accessory uses and structures, diversified agriculture, livestock and grazing, outdoor recreation, undeveloped campgrounds and resource management. See Kauai County Comprehensive Zoning Ordinance, Chapter 8, Article 8 for detailed information. In relation to specifically permitted uses of buildings and other improvements, coverage of buildings and pavement shall not exceed 10% of the lot or parcel area and structures shall only be occupied or used for agriculture associated residential uses, and/or other uses permitted under the Kauai County Zoning Ordinances and the condominium documents. A farm dwelling may not be constructed unless a unit owner demonstrates to the County his ability to derive income from his property, established and verified prior to any building permit approval. You should check with the Kauai County Planning Department for the status of the County's position on these and related issues.

A buyer should understand that development and use of the property shall be in compliance with all County Codes and Ordinances, that owners in this condominium project will not necessarily receive the same County benefits as owners of approved subdivided lots, and that owners who develop their properties later than others may find that land use and zoning changes or insufficient utility capacities may thwart their expectations. The issuance of building permits by the County of Kauai for the agricultural sheds does not constitute a guarantee that water or water services by the County of Kauai will be provided to the property at any time in the future. Also, zoning and land use restrictions are subject to change and each purchaser should maintain awareness of such conditions.

This project is entitled to one guest house. The right to construct the guest house is assigned to Unit D. See Section XXII of the Declaration of Condominium Property Regime for further information.

D. The developer hereby certifies that all the information contained in this Report and the Exhibits attached to this Report and all documents to be furnished by the developer to buyers concerning the project have been reviewed by the developer and are, to the best of the developer's knowledge, information and belief, true, correct and complete.

SUMMARY OF PROTECTIVE COVENANTS, CONDITIONS AND RESTRICTIONS OF KALIHIWAI RIDGE SUBDIVISION

This Project is located on one of the lots of the Kalihiwai Ridge Subdivision. The Subdivision is controlled by a "Declaration of Protective Covenants, Conditions and Restrictions for Kalihiwai Ridge" (herein called the "CCRs") recorded on October 11, 1988 at Book 22452, Page 429 of the records of the State of Hawaii Bureau of conveyances, as amended from time to time and as supplemented by Correction to Declaration of Protective Covenants, Conditions and Restrictions for Kalihiwai Ridge dated July 5, 1990, recorded as Document No. 90-104733, and by Annexing Declaration of Restrictive Covenants dated November 7, 1991, recorded as Document No. 91-155979 and the Annexing Declaration dated March 17, 1992, recorded as Document No. 92-045028, and the First Amendment to Declaration of Protective Covenants dated August 9, 1993, recorded as Document No. 94037305, all of said recordings being in the Bureau of Conveyances of the State of Hawaii.

This is a summary of the types of restrictions applicable to the Kalihiwai Ridge Subdivision as a whole, and to the Subdivision Lot upon which this Project is located. This is not meant to completely recite the actual provisions of the CCRs, nor to cover every issue in which a prospective purchaser might have an interest. The prospective purchaser is urged to obtain a full copy of the CCRs, and the subsequent documents affecting it, from the Developer prior to entering into an agreement to purchase a unit in this Project.

ARTICLE II CONTROL OF REAL PROPERTY USE

Article 11 of the CCRs has to do with the goals of the CCRs for Kalihiwai Ridge, the requirement that all new construction and modification of existing improvements, except by the Developer of the Subdivision, are required to first be approved by the Kalihiwai Ridge Environmental Committee in accordance with the applicable Environmental Design Rules, and rules applicable to the assignment or attempted assignment by owners of rights and obligations.

ARTICLE III THE ASSOCIATION

This Article III discusses the Kalihiwai Ridge Community Association (the "Association"), comprised of all the owners of Lots, its general purposes and powers, membership, election of Boards of Directors, voting rights, its Articles and Bylaws, notices regarding Association meetings and similar matters.

ARTICLE IV RIGHTS AND OBLIGATIONS OF THE ASSOCIATION

This Article deals with the right of the Association to govern the lots, enter onto lots to determine compliance with rules, and to own, manage and maintain Association Property. It includes the right to incur expense on behalf of the Association and acquire and hold necessary

personal property to perform its functions. The Association also has the power to implement rules and regulations to enhance the value of the property and prohibit noxious and offensive activities. Each owner is entitled to a copy of every rule and regulation passed. The Association also has the power to enforce the rules and CCRs, to collect fees, and to levy fines and collect them.

ARTICLE V ASSESSMENTS

Each Lot Owner, in this case the Project itself, will be required to pay Association fees. Payment for such fees is contemplated in the Common Expenses to be assessed for the project. This Article also deals with the method of establishing a budget and assessments. Additional assessments may be made when the need arises. The assessments, fines, penalties, etc. constitute liens upon the lots, in addition to individual responsibility of the owners for payment thereof.

ARTICLE VI RIGHTS AND RESTRICTIONS

No Lot owner will be allowed to engage in activities which would risk removal of liability insurance coverage, nor may they violate the law of the State of Hawaii or ordinances of the County of Kauai. This Article also prohibits subdivision of lots or consolidation of lots without the consent of the environmental committee in compliance with certain procedures.

Condominiums and further restrictive covenants must have prior approval under Article VI of the Developer. No timesharing is permitted. Occupancy limitations are stated, including the number of Single Family Residences, Additional Dwelling Units and guest facilities. There are specific limits on the nature and number of vehicles and other activities that would be deemed "unsightly" as well as preclusion of other activities such as unusual accumulations of trash, garbage, refuse, lumber and other bulky materials, including farm implements which are not consistent with the use of the land or not adequately screened from public view. There is also a limitation on excessive noise and unscreened light. Agricultural animals are limited to those approved by the environmental committee for the subdivision. Animals must be properly cared for, particularly livestock, poultry, fish and game. No storage shed may be used for residential purposes. No temporary buildings are permitted. No new improvement may be made nor may any existing improvement be materially altered unless the plans are approved by the Kalihiwai Ridge Environmental Committee.

This Article restricts temporary buildings and structures, trailers and tents and prohibits the use of garages, sheds, trailers, mobile homes, tents, temporary buildings or partially completed buildings for human habitation.

This Article limits the nature and size of signs. The Article precludes mining and drilling. Clearing and grading are subject to prior approval by the environmental Committee and the County of Kauai. Cultivation of crops must be performed in a good, safe manner with environmental approval on methods used to control dust, insects, weeds, and drainage. Unit Owners must protect against flooding and erosion and dangerous chemicals. They must also maintain their lots at all times so that they do not become overgrown and unsightly. owners causing damage to Association property will be required to pay for it.

Structures on lots must be located to be inconspicuous and each Single Family Residence on a Lot must have appurtenant to it a garage to accommodate at least two automobiles and must be architecturally harmonious to it.

This Article also deals with other limitations upon structures, materials, architectural design, sanitary waste, etc., including substantial provisions for enforcement.

ARTICLE VII LAKE LOTS

This Article deals with the regulation of the lake and the lots that surround it at the subdivision, including the operation of boats, introduction of new species, and the utilization of lots fronting the lake.

ARTICLE VIII EASEMENTS

Easements are to be granted through each Lot for emergency repair and other items needed for the benefit of the subdivision.

ARTICLE IX ENVIRONMENTAL COMMITTEE

This Article discusses the creation and maintenance of the environmental committee, including its initial members and subsequent members. It outlines committee functions, including design review for all improvements to the subdivision lots and project limited common elements and enforcement of rules. The article discusses requirements for plans, standards for review. This includes the requirement of the posting of improvement bonds in the amount of \$10,000.00 per Lot. The committee has the right to assess a reasonable fee not less than \$500.00 for the review of proposed plans, plus the cost of any professional consultants the Committee hires to advise it. The committee can also adopt rules for its own procedures. Fines are discussed, including fines of over \$2,500.00 for engaging in construction without proper clearance and permission. These fines may be enforced as liens against individual lots for violative activity. Work must be prosecuted to completion after approval.

ARTICLE X INSURANCE

This outlines insurance requirements for the project including minimum One Million Dollar liability coverage. Individual owners will be required to maintain insurance on their own Lot.

ARTICLE XI DESTRUCTION/CONDEMNATION AND RESTORATION

This dealt with the condemnation of subdivision improvements by public authorities and when and how partially or completely destroyed improvements are to be repaired or replaced.

ARTICLE XII
EXPANSION OF KALIHIWAI RIDGE

This Article deals with the right of the Declarant to annex additional property, up to approximately three thousand acres of adjacent lands to the Kalihiwai Subdivision, and the means by which this may be accomplished. This right to annex land shall expire on or before the twentieth anniversary date of the covenants were recorded on October 11, 1988.

ARTICLE XIII
ENFORCEMENT

This Article deals with the various methods by which the rules of the Subdivision may be enforced.

ARTICLE XIV
MISCELLANEOUS

This Article has to do with many miscellaneous items. It includes the duration of the CCRs, being initially for twenty years and an automatic extension for ten year terms unless and until seventy-five percent (75%) of the Owners of lots vote to the contrary at least one year prior to the scheduled termination of the Covenants. It also deals with amendments to the Covenants requiring a 66.66% majority of the voting power of the Association. The amendment does not apply to the duration of the CCRs, and certain other matters, which can only be amended by a one hundred percent (100%) vote of the voting power of the Association. Other miscellaneous provisions are discussed, including the means by which the CCRs would be interpreted in a court of law, protection of encumbrancers, notice requirements, assignability of rights, severability of clauses, and so forth.
